Hazardous Weather

Day 1 Weather Hazards

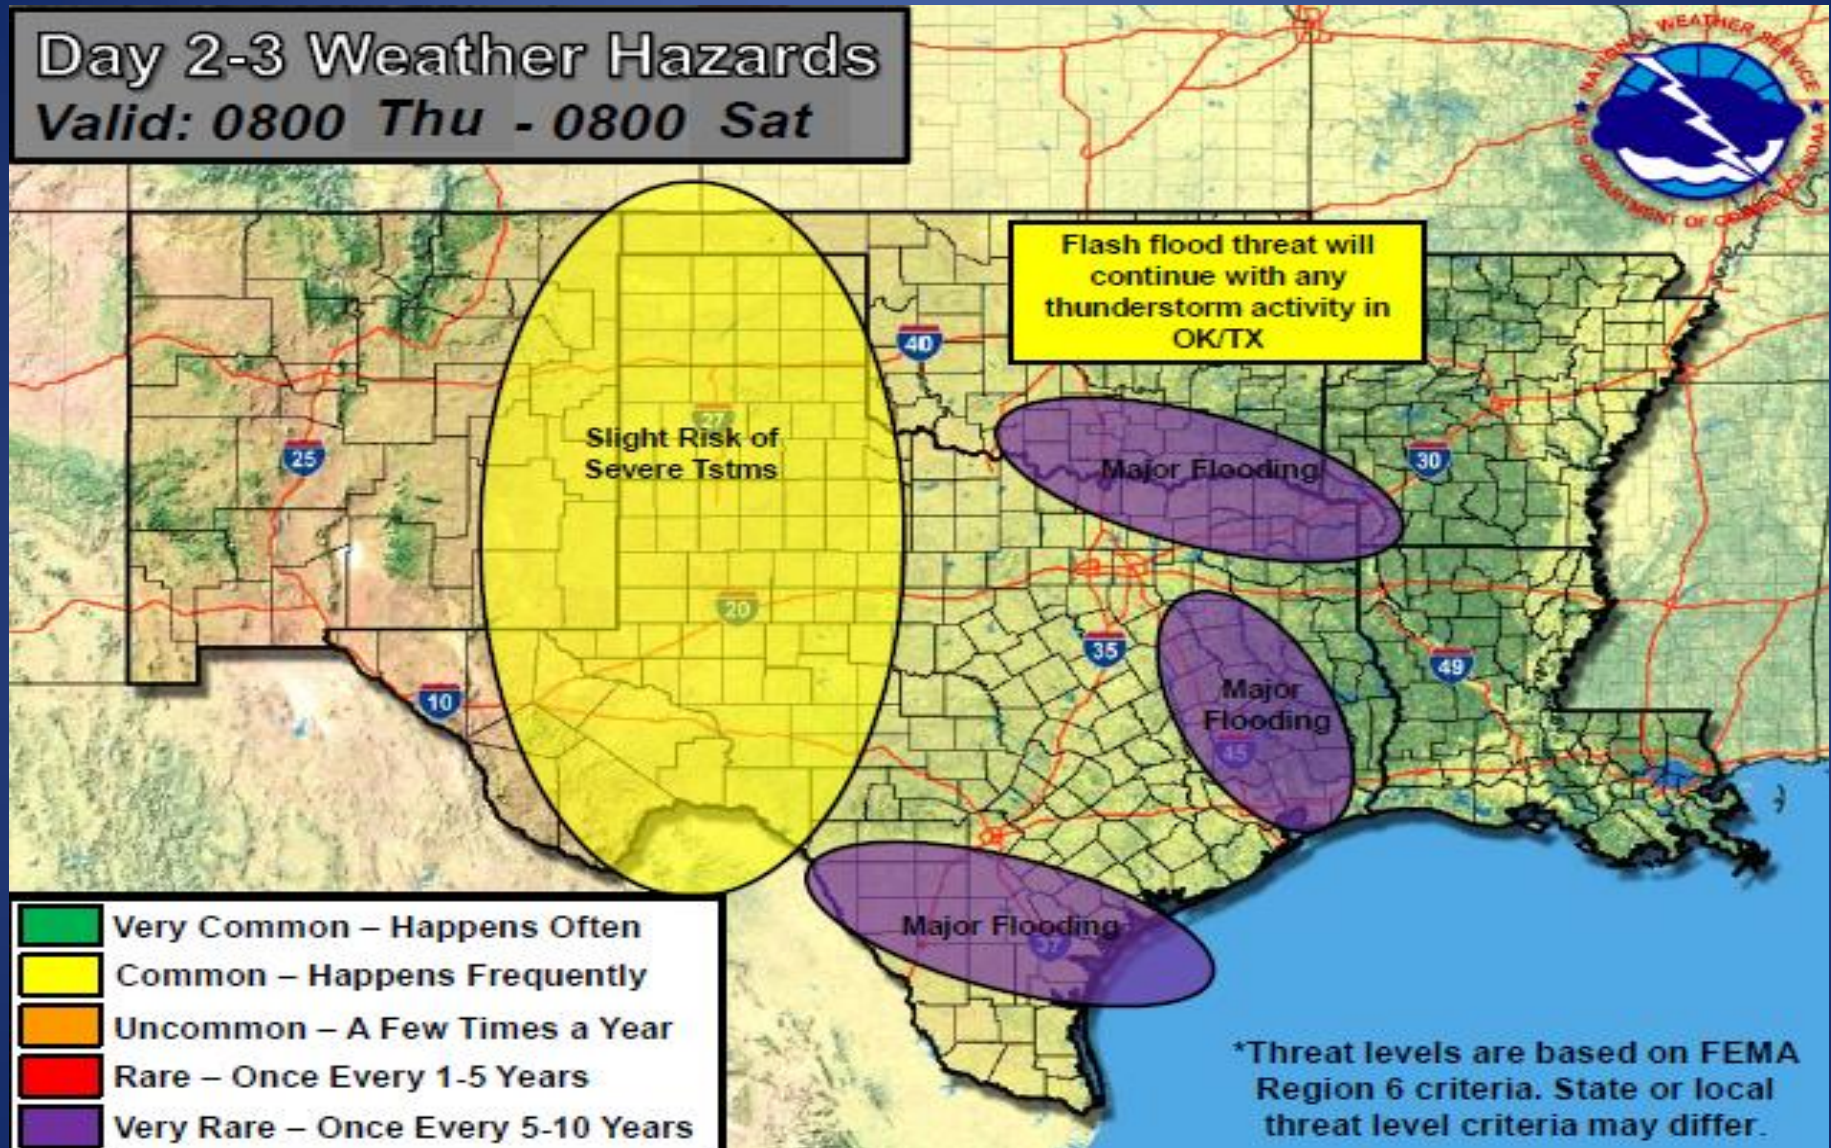

Valid: 0800 Wed - 0800 Thu

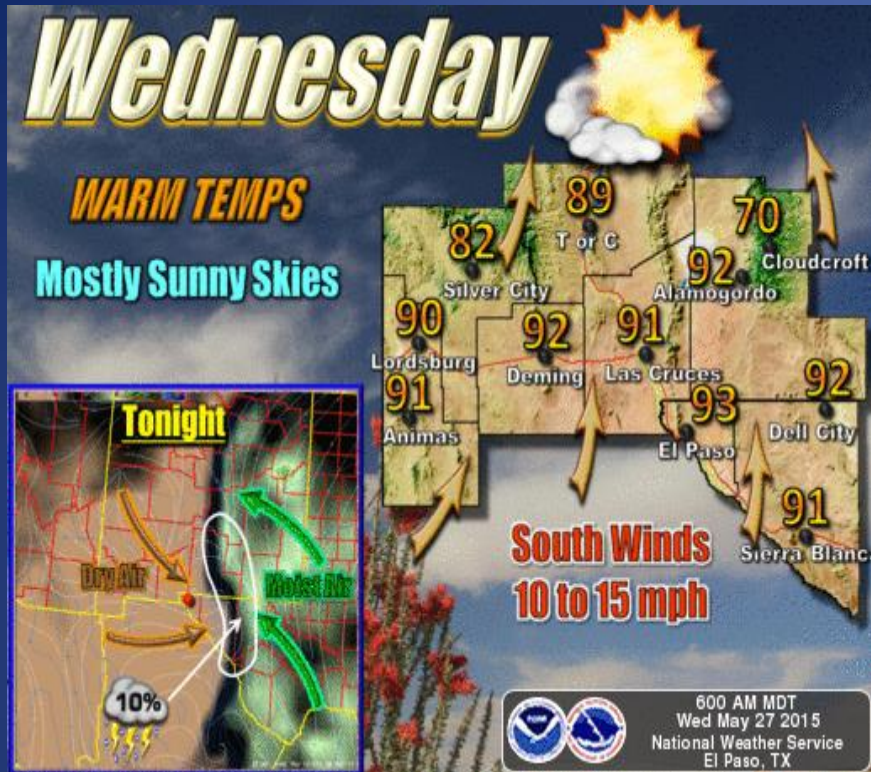

Hazardous Weather

Day 2-3 Weather Hazards

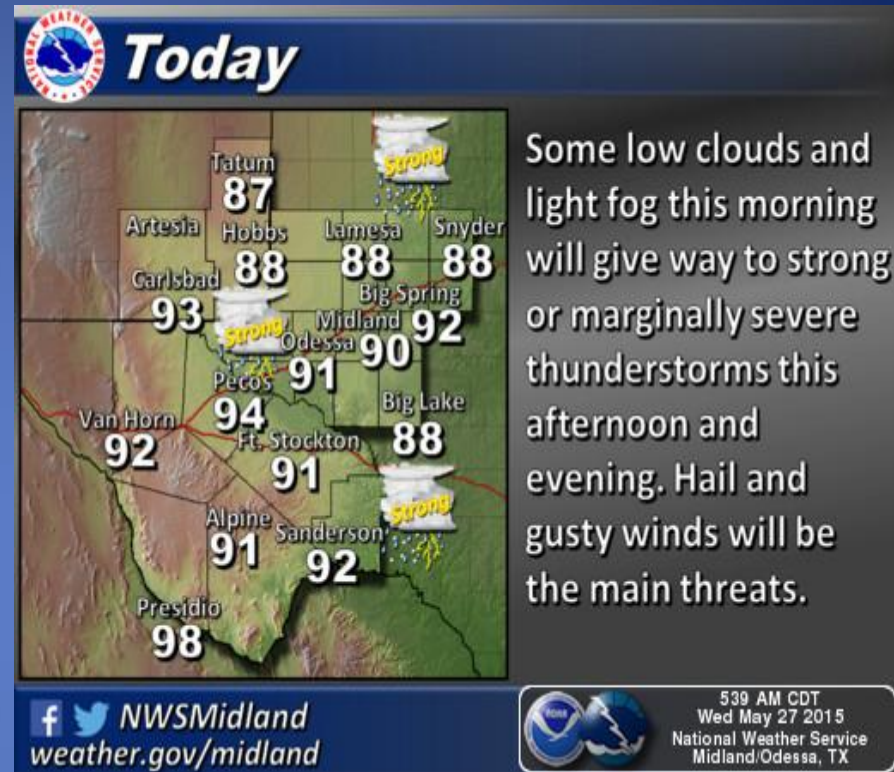

Valid: 0800 Thu - 0800 Sat

Hazardous Weather

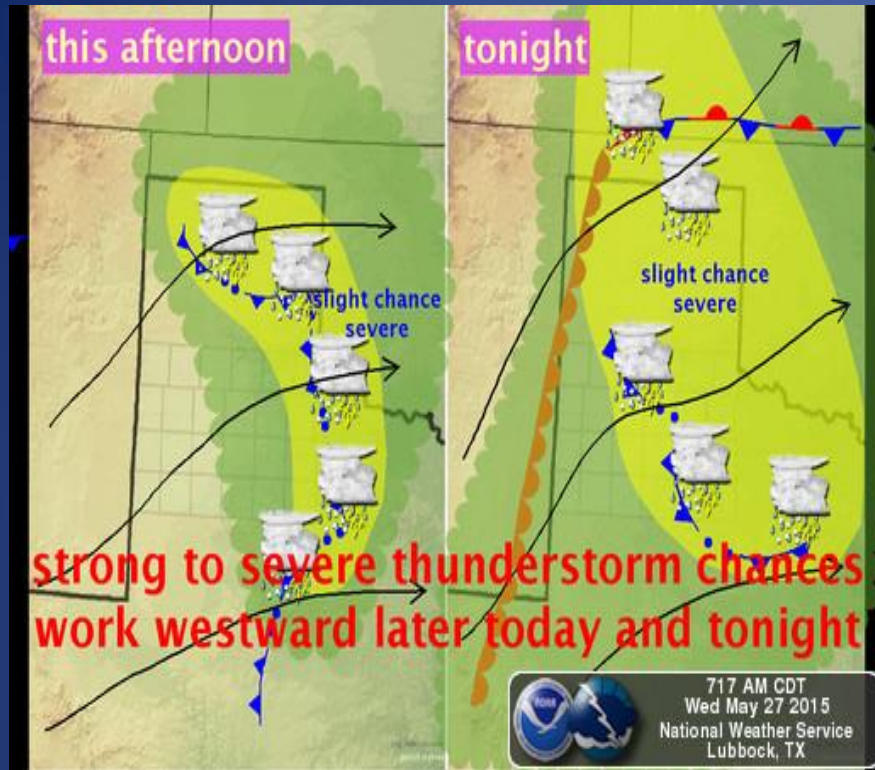

An upper disturbance currently over the Northern Baja will spread some higher clouds to the Borderland today as it eventually moves across southern New Mexico overnight. At the lower levels, the air will remain dry through most of today. By late this afternoon and this evening some moisture will move in from the east across Hudspeth and Otero counties. By later this evening a thunderstorm is possible, mostly east of Alamogordo and Cornudas. Highs will warm back above normal today, for only the second time in the past week.

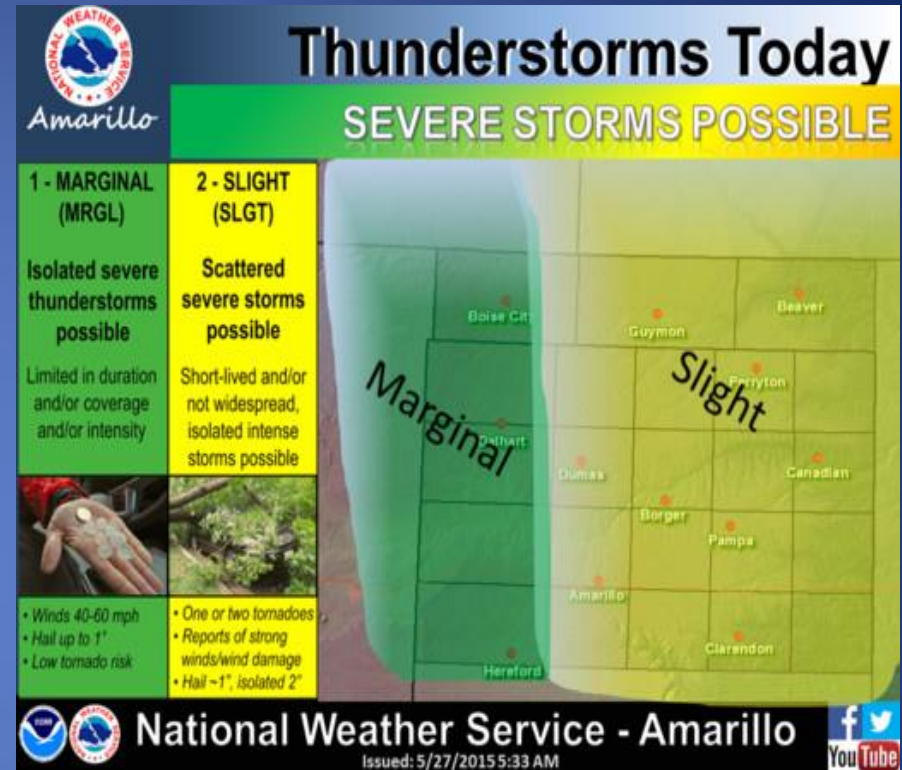

Highs will be near normal today with showers and thunderstorms developing this afternoon. Some could be strong or marginally severe with hail and gusty winds the primary threats.

Hazardous Weather

Mostly sunny and warm during the day with highs in the mid 80's. Late afternoon/evening showers and thunderstorms become more widespread across the West Texas later today and overnight with the potential of some being strong or severe. Gusty winds and hail will be the primary threat.

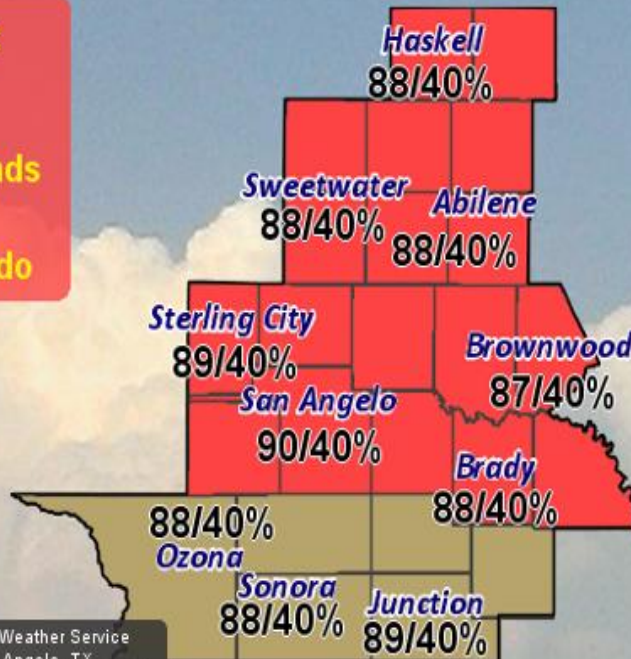

Some of the thunderstorms that develop today may become severe with large hail and damaging winds the main threats.

Hazardous Weather

Scattered Severe Storms Today

Main Hazards:

Large Hail
Damaging Winds
Heavy Rain
Isolated tornado

National Weather Service
San Angelo, TX
Updated: May 27 3:27AM

Flash Flood Watch

In Effect through 12 PM CDT

- Flash Flood Watch in effect for Montgomery, Harris, Ft. Bend (including the Houston Metro)
 - Widespread 1 to 3 inch accumulations with locally higher amounts possible
 - River flooding will also be possible as additional rain falls over swollen rivers
- Do not drive across water covered roads
- Have multiple ways to get weather info!

411 AM CDT
Wed May 27 2015
National Weather Service
Houston/Galveston, TX

A Flash Flood Watch is in effect for parts of the Houston Metro this morning as a line of thunderstorms approaches the area.

Hazardous Weather

There will be yet another Slight Risk of severe storms this afternoon and evening over western Oklahoma and western north Texas. A Marginal Risk will continue elsewhere in central and eastern Oklahoma.

Scattered storms will develop this afternoon across north and central Texas. Some storms may be severe, with large hail, damaging winds, and perhaps a tornado. Flash flooding will also be a threat due to excessive recent rainfall. Not all areas will see thunderstorms with only scattered coverage expected, but northeastern areas will have the highest chances of storms today.

Hazardous Weather
